

BACKSTAGE SERIES

Brewed for us. The Backstage Series is the perfect avenue to bring out some of our most sought after and experimental beers to a much larger audience. Each 750 ml. bottle of these specialty batches are the perfect reward for Founders' fans. Each release affirms that as a small brewery we continue pushing the liquid envelope. For us, it is always about producing the best beer we can and sharing with those who share our passion.

These beers will be released sporadically throughout the year and always in limited supply. They are not on a set schedule and may or may not ever be brewed again. You can be assured that whatever is released will be amazing and unique. These limited products are offered in 750ml bottles and slim 1/4 barrels. They have separate UPCs and varying price points.

FOUNDERS. BREWED FOR US.
