Brau Brothers Brewing Co, LLC is located in the tiny town of Lucan, Minnesota. Tucked in the southwest part of the state, we have worked to restore the rich tradition of the small town brewery.

Established in the spring of 1998, the brewery began as a brew pub on the Main Street. We then spent the next eight years honing our brewing skills, building recipes, and collecting feedback.

In 2006 the brewery moved to a six acre brewery complex on the edge of town overlooking the city's cemetery and dump ground. At that time a bottling line was added and capacity was increased to 5,000 barrels.

Today the brewery is surrounded by the state's first commercial hop yard. Spanning three acres, we currently grow eleven different varieties of hops which are used for many of our beers. We have also recently began malting operations with plans to add a malt house shortly. Using locally grown brewing ingredients is a priority.

We now produce five distinct styles year-round as well as the Single Batch Series beers which are brewed at the brewer's whim in incredibly small runs. Our modest scale allows for flexibility and the opportunity to offer true craft beer.

We truly hope you enjoy!
-Trevor, Dustin, & Brady Brau
