

# HIGH ALTITUDE<sup>®</sup>

## Series

The High Altitude Series is a year-round lineup of the biggest, boldest, most aggressive beers we have ever produced. The series kicks off with the legendary Bigfoot Barleywine in January followed by Hoptimum Whole-Cone Imperial IPA in May and culminates with Narwhal Imperial Stout in September. The High Altitude Series shares the same shelf space and UPC code and products rotate seasonally.

All three beers are available in 4-packs and 5-gallon kegs.
